Threaded Sealing Plugs with assembled washer

Threaded sealing plug design EP 435 complete with washer provides an outstanding seal force useable under complicated working conditions

TRIPLE ADVANTAGE of CAPTOP®

QUALITY. Nylon 6 is used for its stability to withstand temperatures of up to 150°C and pressures up to 2,5 bar (during painting processing and testing). Five complete threads for optimum use. The hexagon head allows tightening and removal with either a screwdriver or a spanner or special tool Guaranteed seal. Nylon 6 guarantees a very high resistance against hydraulic fluids, acids, base alkalines and Solvents. Extremely economical when compared to metal.

AVAILABILITY. With over 400 million moulded components shipped from our Oststeinbek / Hamburg logistics center we provide the fastest on time delivery service to all markets and industries.

PHILOSOPHY. Innovative protective closures at the best price in the market.

CAPTOP®
